Projects

- **Quickzy – Full-Stack Quick Commerce Platform** [GitHub](#) — [Live](#)
Tech Stack: Next.js • React.js • JavaScript • Tailwind CSS • Node.js • MongoDB • Mongoose • NextAuth.js
 - Developed a full-stack quick commerce platform featuring responsive shopping workflows, product discovery, secure authentication, state-managed cart and wishlist, geolocation-based checkout, and Razorpay payments.
 - Built a role-based admin dashboard with 6+ management modules for products, categories, banners, coupons, users, and orders, integrating Cloudinary media storage, MongoDB Atlas, and scalable backend workflows using Next.js Server Actions.
- **SkillBridge – Placement Preparation Platform** [GitHub](#) — [Live](#)
Tech Stack: Next.js • React.js • JavaScript • Tailwind CSS • Node.js • MongoDB • Mongoose • NextAuth.js
 - Built a placement preparation platform featuring resume analysis, placement readiness scoring, company readiness evaluation, skill gap analysis, career roadmaps, curated study resources, Kanban-based goal tracking, and hackathon opportunities.
 - Designed responsive dashboards with resume auto-sync, profile synchronization, DSA progress tracking, interactive visualizations, and secure role-based administration using Next.js, MongoDB, and Mongoose.
- **Blog Management System** [GitHub](#) — [Live](#)
Tech Stack: HTML • CSS • JavaScript • Node.js • Express.js • EJS • MongoDB • Mongoose • JWT
 - Developed a full-stack blogging platform featuring JWT authentication, protected admin routes, CRUD operations, and MongoDB persistence using Mongoose.
 - Built responsive server-rendered interfaces using EJS with homepage post feeds, Markdown rendering, Light/Dark theme support, and modular Express.js architecture with middleware and input validation.

Education
