Professional Summary

Third-year Computer Engineering student and full-stack software developer with hands-on experience building web applications using Next.js, React.js, JavaScript, TypeScript, Node.js, MongoDB, and PostgreSQL. Developed platforms across e-commerce, placement preparation, student development, and other domains, implementing authentication, payments, analytics, RBAC, and data-driven workflows. Built knowledge of C++, Java, and Python, along with Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, and Computer Networks, with **120+ DSA problems** solved and participation in **15+ hackathons**.

Technical Skills

- **Languages:** C++, Java, JavaScript, TypeScript, Python, C
- **Frontend:** React.js, Next.js, Redux Toolkit, HTML, CSS, Tailwind CSS, Bootstrap
- **Backend:** Node.js, Express.js, RESTful APIs, EJS
- **Database:** MongoDB, PostgreSQL, MySQL, Mongoose
- **Tools & Platforms:** Linux (Ubuntu), Git, GitHub, Postman, MongoDB Atlas, MongoDB Compass, Vercel, Render, VS Code, Antigravity IDE
- **CS Fundamentals:** Object-Oriented Programming, Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks
- **Data Science Library:** NumPy

Projects

- **Quickzy – Full-Stack Quick Commerce Platform** [Live Demo](#) | [GitHub](#)
Tech Stack: Next.js • React.js • JavaScript • Tailwind CSS • Node.js • MongoDB • Mongoose • NextAuth.js
 - Engineered a quick commerce platform featuring passwordless email authentication via NextAuth.js and Brevo, geolocation with **Leaflet + LocationIQ** for delivery address pinning, persistent cart and wishlist, Razorpay payments, and an **under 15-minute simulated delivery-time display** with a **4-state order flow**.
 - Built a role-based admin dashboard with **6 modules** (products, categories, banners, coupons, users, and orders) using Next.js Server Actions for workflows, MongoDB Atlas for data, and Cloudinary for media.
- **SkillBridge – Placement Preparation Platform** [Live Demo](#) | [GitHub](#)
Tech Stack: Next.js • React.js • JavaScript • Tailwind CSS • Node.js • MongoDB • Mongoose • NextAuth.js
 - Engineered a placement preparation platform with a **100-point readiness scoring engine**, ATS resume analysis, company readiness evaluation, skill-gap assessment across **10 technical roles**, career roadmaps, and curated study resources.
 - Developed responsive dashboards integrating resume auto-sync, profile synchronization, a **19-topic DSA tracker**, Kanban-based goal tracking, **Recharts analytics**, and secure role-based administration.
- **StudentSetu – Student Development Passport Platform** [Live Demo](#) | [GitHub](#)
Tech Stack: Next.js • React.js • TypeScript • Tailwind CSS • Node.js • PostgreSQL • Prisma • NextAuth.js
 - Engineered a centralized Student Development Passport platform for comprehensive student activity records, featuring **5-role RBAC**, individual project contribution tracking, evidence-based verification workflows, and dynamic **institutional analytics using Recharts**.
 - Designed an **18-model relational schema** with Prisma and PostgreSQL, implementing deterministic verification routing, binary evidence storage, technical skill profiles, and print-ready NAAC/NBA reports.

Education

- **Bachelor of Engineering in Computer Engineering** – Thakur College of Engineering and Technology, Mumbai University **3rd Year (2024–2028) | CGPI: 9.25**
- **XII (HSC)** – Thakur College of Science & Commerce, Maharashtra State Board **2024 | 78.83%**
- **X (SSC)** – Himalaya High School, Maharashtra State Board **2022 | 78.80%**

Activities & Achievements

- **Hackathons** Jul 2025 – Present
Participated in 15+ national-level hackathons and advanced to final rounds in the **Odoo × SPIT Hackathon**, **Mumbai Hacks**, **IEEE Mega Project 8.0 (Top 8 Finalists)**, and **InnovaHack Chapter 1 2026**. Also advanced to the second round of **Flipkart GRID 8.0**.
- **Competitive Programming** 28 Dec 2025
Secured **3rd Rank** in the **Code Contest**, a competitive programming contest organized by Enginow.
- **Problem Solving** Aug 2025 – Present
Solved 120+ Data Structures & Algorithms problems on LeetCode, CodeChef, GeeksforGeeks, and CodeStudio.
- **GitHub Profile** Dec 2024 – Present
Maintained 40+ repositories with 700+ commits across personal, academic, full-stack development, automation, and hackathon projects.
